Liability

Wilo is unique because the liability of the manufacturer – through subsidiaries – becomes the liability of the supplier. Besides that, the communication with customers is more direct and based on strong relationships and mutual trust. Trust, knowledge, quality, innovation – in one word **Wilo**

Service.

Relevant fact for end users is that WILO Beograd has it's own service department, and it also provides a network of authorized service centers in Serbia and Montenegro, as well as a warehouse with a large stock of spare parts. All this ensures service interventions that are carried out by authorized service personnel.

Professional support.

According to Wilo SE standards, all employees at Wilo Beograd provide absolute professional and technical support in pumps and related accessories selection, as well as various types of Wilo product-related trainings. At your disposal is a large selection of catalogs and leaflets in hard print and electronic form, as well as software for pumps selection Wilo-Select 4.
